

Median Number of Minutes Spent Commuting

WASHINGTON STATE

- The core western metropolitan counties show medians of 20 minutes – twice the commute time in the non-metropolitan East and West Balance.

About the State Population Survey

The **Washington State Population Survey** was conducted in the spring of 1998 to provide social, demographic, and economic information about Washington residents that would otherwise not be available between the 1990 and 2000 federal census years.

Responses to the survey were obtained from telephone interviews of 7,279 households that represent the state population as a whole. The survey was designed by the **Office of Financial Management** and conducted by the **Washington State University Social and Economic Sciences Research Center**.

Data from the survey, as well as a background report titled, *1998 Washington State Population Survey Data Report*, are available electronically at <http://www.wa.gov/ofm/> under **Population/Data**, or by calling the Office of Financial Management at **(360) 902-0599**.
